

## Monoposto drivers Briefing Silverstone Grand Prix, 8/9 June 2024

1. **Procedure for Qualifying** – cars will proceed to the Assembly Area when instructed. On instruction from the marshals proceed directly on circuit. The qualifying starts when the Green Flag is shown in the Assembly Area. You don't need to enter the pit lane but can if you wish.
2. **Procedure for Racing** – proceed to the Assembly Area when instructed to do so by the coordinator. Assemble in grid order as instructed by the marshals.

**The start will be a ROLLING START.**

On instruction from the marshals proceed **around Luffield behind the Pace Car**. The Pace Car will proceed without stopping on the grid to start of **one Green Flag lap** of the full Grand Prix Circuit. The Pace Car will extinguish its lights on the Wellington Straight. The Safety Car will leave the circuit via the Pit Entry. The leader will maintain the pace and cars should remain in their 1 x 1 formation. **The start is given when the Red Lights on the gantry change to GREEN. In the event that we need to stop the race during the start these lights may go back to Red along with Red Flags and Red lights around the circuit.** Racing commences when the Red Lights are extinguished and overtaking is permitted before the line.

3. Race duration will be **20** minutes.
4. **Practice starts** can only be carried out at the pit lane exit. There is a practice start box around the corner before the end of the armco barrier. Don't be caught out by a car stopped in that location carrying out a practice start. **Do not stop on the track to practice your start or when approaching the starting grid where there will be other cars and, probably, marshals.**
5. **Track limits:** Be aware of the track limit regulations and comply with them in particular at Turn 1 (**Copse**), Turn 7 Exit (**Stowe**) and Turns 9/10 (**Exit Vale & Club**). There are Judges of Fact to report infringements. Please note that the track limit regulations and procedures will be **in accordance with the current MOTORSPORT UK Regulation Q12.21.2**. A driver will be judged to have left the track if any wheel of the car goes completely beyond either the outer edge of the Black & White kerb (not the Green & White kerb) or the white line where there is no kerb.

6. **Flag signals:**  
**Motorsport UK Regulation Q12.24**

**12.24. Signals shall be in accordance with the following. At venues where light panels are operational these light signals will take priority and may be supplemented with flags.**

**Yellow** – For the safety of my marshals, please respect them. A SINGLE Waved Yellow means 'danger, slow down sufficiently to ensure that full control of the vehicle can be retained. No overtaking.

A **Double Yellow** means 'great danger. Slow down considerably. Be prepared to suddenly change from the projected racing line, or take other evasive action including stopping if necessary. No overtaking.

Overtaking or not slowing down is an offence from the point of passing the Yellow signal(s) until the Green signal is passed. It must be evident that a driver has reduced speed; this means a driver is expected to have braked earlier and/or noticeably reduced speed where a Yellow Flag is displayed. **Individual sector times &/or onboard data/video may be analysed for proof of a sufficient reduction in pace.**

**RED Flag:** Immediately cease driving at racing speed and proceed slowly, without overtaking, and with maximum caution to pits or start line obeying marshal's instructions, and being prepared to stop should the track be blocked.

7. **Blue:** Please watch for Blue signals. The onus is on the faster car to pass safely and the slower car should not suddenly change direction. Please be aware of cars on a 'hot lap' during qualifying.
8. **Contact:** Avoidable contact will NOT be tolerated. Penalties may be applied in the event of any avoidable contact.
9. **Excessive and aggressive defending** will not be tolerated. The Motorsport UK Regulations state "*In response to each attempted overtaking manoeuvre no more than one change of direction to defend a position is*

permitted. Any driver moving back towards the racing line having earlier defended his position off-line should leave at least one cars width between his own car and the edge of the track on the approach to the corner". Q12.21.1 goes on

to state: 'However, manoeuvres liable to hinder other drivers, such as deliberate crowding of a car beyond the edge of the track or any other abnormal change of direction, are strictly prohibited. Any driver who appears guilty of any of the above offences may be reported to the Clerk of Course.'

**10. Control Flags:** Control flags (Black/White, Black/Orange etc) with car numbers will be shown at the finish line on drivers **RIGHT**. These can be difficult to see at Silverstone.

**11. Safety Car:** The Safety Car will join the circuit at the Pit Exit. At the end of a Safety Car period its lights will be extinguished at around Aintree (Turn 15). There may be occasions where they will be turned out later. For race start, the Safety Car may be positioned so that it can be deployed directly onto circuit if required. At the end of a Safety Car period when cars are at the entrance of Brooklands (Turn 12) drivers must proceed at a pace which involves no erratic acceleration or braking nor any other manoeuvre which is likely to endanger other drivers or impede the restart. As the Safety Car enters the pit lane the SC boards will be withdrawn and Green Flags will be displayed at the line and Green Lights/Flags at all marshals posts. **Remember, you can't overtake or overlap another car until you pass the Green Flag AT THE CONTROL LINE (the Finish Line). All laps under the Safety Car count and the race duration will remain unchanged.**

**12. End of sessions.** After taking the Chequered Flag after all sessions cars will complete a full lap and enter Parc Ferme by the pit lane entry. The first three cars in each race will stop as instructed for podium procedures. The remainder should proceed to Parc Ferme. Take great care when driving in the paddock being aware of quad bikes, people and tail lifts etc.

**13. AT ALL TIMES** drive within the limit of your capability and that of the car. Be **AWARE** of what is happening around you. Give each other racing room as required by the regulations. There is only one 'racing line' and that is when yours is the only car on track. Do not attempt overtaking manoeuvres that are marginal and likely to result in contact.

**14.** Please adhere to the Motorsport UK **#RaceWithRespect** policy. **RESPECT** each other, **RESPECT** the marshals, **RESPECT** the officials.

Have a good and safe event.

David Scott  
Clerk of the Course  
Silverstone GP 8/9 June 2024
