Session R1

Following an incident at the start of Race 1 involving Cars 4, 5 & 7 the Race Director, Deputy Race Director and Driving Standards Advisor have investigated the incident using video evidence from several cars and broadcast video.

Taking into account that the incident happened at the start and that several cars were involved, the incident is considered as a typical start incident and that no driver is wholly or predominantly at fault. Therefore no further action is proposed.

David Scott

GB3 Race Director
